

WebReserv Quickstart Guides

Installing WebReserv Booking System in Blogger

Introduction

WebReserv is a highly configurable booking system. It can be used for virtually any type of bookings that you need for your business. This manual describes how to set up the WebReserv booking system on a Blogger page.

The set up process is fairly straightforward and the system is designed to seamlessly get you through the process with an end result being a fully functional booking system on your Blogger page.

Set Up your WebReserv account

Your first task is to set up your business in WebReserv.

1. To configure and use the system for your own bookings, you will need a WebReserv account. You can sign up for a free WebReserv Booking System account here:

Americas and Asia:

<http://www.webreserv.com/online-booking-system.do>

Europe:

<http://www.webreserv.eu/online-booking-system.do>

2. Once created your account, go to the WebReserv homepage and click **login+**

3. Setup your business information (Setup . Business Information), your products (Setup - Products and Reservation Rules), and rates (Setup . Rates).

In order to help you WebReserv has created a number of quickstart guides, which can be found here:

How to set up a Bed & Breakfast booking system:

Booking calendar style:

Preview - Update

NOTE: To access your businessid, go to the WebReserv back office and click %Website+. A link will appear at the top of the page right below %Website components+. Your businessid is the last word of the link, <http://www.webreserv.eu/businessid> . Copy and paste it to the %Your businessid+field on the previous blogger screen.

Well done, your booking calendar has been successfully integrated to your blogger account!
