WebReserv Quickstart Guides

How To Add The WebReserv Booking Calendar To Your Facebook Page

Introduction

WebReserv.com is a highly configurable booking system. It can be used for virtually any type of bookings that you need for your business.

This manual describes how to set up the WebReserv booking system to make bookings from your business Facebook page.

The set up process is fairly straightforward and the system is designed to seamlessly get you through the process with an end result being a fully functional booking system for your business available on your Facebook page.

So, let's begin!

Create a Webreserv account

Your first step is to create your WebReserv.com account. Go to <u>www.webreserv.com/start</u>, locate the Get Started box, and click on "Create free account".

Figure 1 – Create account

The system will take you through an initial set up process to enter your business information.

For complete information on how to set up your account, please go to:

http://www.webreserv.com/resources/na/help/admin/index.html

Create your Facebook business page

If you don't have a Facebook account for your business, please create one. To do this, go to <u>https://www.facebook.com/pages/create.php</u> (see image below) and follow the steps to create a Facebook page for your business.

Figure 2 - Create a Facebook business page

Get the Facebook app to add the Webreserv widget to your page

Go to this Facebook Application <u>http://apps.facebook.com/static_html_plus</u> and click on "Add Static HTML to a Page" button circled below.

Figure 3 - Get the static iframe app

Select the correct Facebook page

★ Add Static HTML: iframe tabs to Casa Deco?
Add this application to: Casa Deco
Adding Static HTML: iframe tabs will let it pull your page's profile information, photos, friends' info, and other content that it requires to work. It will also add a box to your page and can publish Feed stories about your page.
Add Static HTML: iframe tabs or Leave Application
Static HTML: iframe tabs was not created by Facebook . By clicking 'add,' you agree to the Facebook Platform User Terms of Service.

Figure 4 - Select the correct Facebook page

You may have more than one Facebook page. When asked, select the correct Facebook page in the 'Add this application to' drop-down list.

Add and tune the Webreserv widget code

Once that is installed you will go back to the Facebook Page which you would like to add it on and you will see a new tab on the left called **'Welcome'** with an **'EDIT'** link below.

Click 'EDIT'. In the 'Enter your content here' box you paste the Webreserv Widget Code.

We recommend changing the **width to "500"** (Facebook has a maximum width of 520, changing to 500 allows the borders to show on the widget and look nice) and the height to whatever will cover all your reserve/book sections.

To control the precise appearance of the booking calendar, including its color, date format, etc, please go to:

http://www.webreserv.com/resources/na/help/admin/using the booking calendar.htm

You can verify that is working by **clicking on the 'Preview' button**.

Figure 6 - Use app settings to get rid of scrollbars

Change app page name from 'Welcome'

Now that you have the code and widget working we need to rename the **'Welcome'** default name to **'Book Online'** or whatever you want to name it.

From your Facebook Page you will see in the top right a button that says **'Edit Page'** shown below. Click this button.
